PEANUT PREPARATIONS

If you like your peanuts hot from the pot, follow the instructions below:

- Bring ½ gallon of tap water to a boil in a saucepan.
- Remove peanuts from plastic bag and add to boiling water.
- Remove saucepan from heat.
- Peanuts will be warm, juicy, perfectly seasoned and ready to eat in just a few minutes.
- Remove Promptly. Peanuts may lose some of their salty goodness if left soaking in unsalted water.

Like your peanuts EXTRA Salty?

Add ¼ to ½ cup of salt (depending on your taste) to water before boiling and let soak to achieve desired flavor.

Like your peanuts EXTRA SOFT?

Add salt and simmer (20+ minutes) to achieve desired softness before removing saucepan from heat.
